Work History

2024-03 - Current

Web Designer and Web Development
Free Lance Web Development, Remote
- Designed highly engaging interactive user interfaces that complied with modern web standards.
- Designed user interface to meet client specifications.
- Optimized website performance with regular evaluations and adjustments to page load times, image optimization, and code efficiency.
- Increased online visitor engagement by incorporating interactive features like multimedia elements, animations, and call-to-action buttons.
- Configured templates for clients to easily customize.
- Developed graphic and image assets for both content and digital marketing efforts.
- Coded websites using HTML, CSS, JavaScript, and jQuery languages.

2022-05 - 2024-02

Front End Developer
Sharim Solutions, Islamabad
- Utilized HTML, CSS, and JavaScript to create visually appealing and responsive web pages that met client requirements.
- Pioneered adoption of CSS preprocessor, simplifying stylesheet management and accelerating style changes implementation.
- Streamlined development workflows by introducing version control with Git, enhancing team collaboration and project tracking.
- Coded using HTML, CSS, and JavaScript to develop features for both mobile and desktop platforms.
- Worked closely with UX/UI designers to translate their designs into functional web applications.
- Utilized version control systems such as Git to track changes throughout the development process.
- Maintained website performance by conducting regular updates and addressing compatibility issues across various platforms.
- Enhanced user experience by optimizing web applications for maximum speed and scalability.
- Researched emerging web technologies and trends for possible incorporation into sites.
- Contributed to projects within Scrum project management environments.
- Collaborated with UX/UI designers to translate visual concepts into functional and dynamic web pages, ensuring alignment with brand standards and user expectations.
- Supported marketing team by developing landing pages that effectively communicated promotional offers, driving increased user engagement and conversions.
- Developed user-friendly web forms with validation and error handling.
